

WILLESLEY EQUINE CLINIC

FEES FOR CHILLED SEMEN 2012 SINGLE CYCLE

For work carried out at **WEST KINGTON STUD**

We quote a set fee of: **£285.00 + VAT**
per cycle

THIS FEE INCLUDES:

- Endometrial swab and smear to check for Endometritis.
- All routine gynaecological examinations and drugs to ensure insemination is performed at the optimum time.
- Insemination.
- Post-ovulation check (including uterine lavage with 1 litre of saline if necessary)
- Ultrasound pregnancy examinations to embryo/heartbeat detection.
- Manual twin elimination and subsequent additional pregnancy examinations.
- Caslick procedure.

If the mare is not pregnant after her first insemination, then the process can be repeated at a reduced cost of:

£235.00 + VAT
per cycle

If the mare requires a third insemination, then the fee is reduced to **£185.00 + VAT**
per cycle

THIS FEE DOES NOT INCLUDE:

- **The cost of sedation, if it is necessary.**
- **Additional litres of saline for uterine lavage.**
- **Treatment for Endometritis. If the mare is diagnosed with Endometritis on her swab and smear, an all inclusive treatment fee of £85.00 + vat will be charged in view of work and drugs used.**

If the insemination is not completed due to ovulation failure, semen delivery failure, incorrect or absent health status paperwork – instead of starting a new package an insemination failure fee of £150 + vat will be charged in view of work and drugs used.

All veterinary treatment must be paid for in full before the work commences and the fee plan is not transferable to the following season.
